

New Frontiers

Join the leading edge

New Frontiers is an intimate gathering that brings 350+ world changing entrepreneurs and founders, investors, policy experts and government decision-maker together with business and industry leaders, artists, creators, and storytellers.

Web 3.0 technologies like blockchain are changing the landscape of possibility for governments, finance, data security, online social networking and currency. Learn from leading thinkers and actively engage with workshops, open space discussions, connection dinners, keynote talks and fireside chats.

New Frontiers
